Order code - 72MRS/BKT

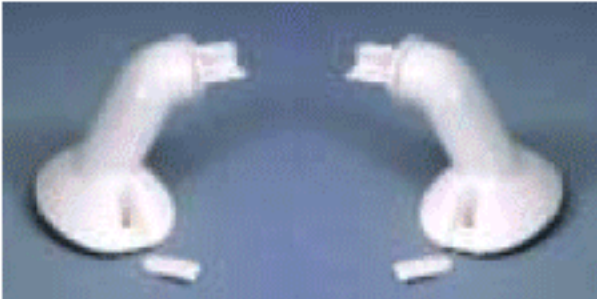

The Cefndy Healthcare modular Grab Rail System enables any area to be railed in an economical and simple way.

Cefndy's system of rails and fittings, combine tough high quality support with total versatility

The system component parts have ergonomically designed hand grips with flexible, non-slip ribbed textured undersides to give the user optimum safety and leverage.

**Warning - Grab Rails**

These products should only be fixed to walls of sound construction and careful consideration should be given when choosing fixings.
